

Video Image Applications

Real Storage. Unreal Innovation.

Edge to Cloud Storage Solutions

Our full storage portfolio of video and analytics solutions are built and tested for security and surveillance. With SkyHawk™ drives for NVR, Exos® and Nytro® at the edge systems, Exos X high-performance enterprise storage systems, and our surveillance-optimized Lyve™ solutions—including Lyve Mobile edge storage and Lyve Cloud storage-as-a-service—we've created a reliable affordable, flexible, scalable, and secure foundation to help meet the growing demand of video storage from edge to cloud.

Best-Fit Environment:
• Video Imaging Applications

Video Image Applications Real Storage. Unreal Innovation.

Edge to Cloud Storage Solutions
