

Data Sheet

Barracuda® LP

The new low-power drive that will not slow you down

2 TB, 1.5 TB and 1 TB • SATA 3-Gb/s

Key Advantages

- Power consumption has been reduced by up to 44 per cent over standard desktop drives to provide power savings over the life of the drive
- Best-in-class acoustic performance means whisper-quiet operation
- Cool, low-power drives can reduce more than electricity costs, reducing costs of fans and power supply units
- Sustainable technology for a green world:
 - 70 per cent or more of the materials used to build the drive can be recycled
 - Complies with the RoHS directive and several non-regulatory restrictions
 - Designed and built to the highest international environmental standards
 - Brought to you by Seagate, a company that has gained recognition for implementation of green practices worldwide

Best-fit Applications

- Personal Attached Storage — USB/FireWire/eSATA
- Small office and home data storage appliances
- Low-power PCs

Barracuda® LP

The new low-power drive that will not slow you down

The company that has provided the world with product innovation over 12 generations of desktop drives has turned its focus to the increasing customer need for low-power drives. Meet the Seagate® Barracuda LP family, the low-power drive with rock-solid performance and whisper-quiet, super-cool operation.

Low Power

- Low-power drives provide immediate cost savings during operation
- Reduced power consumption and heat generation enable systems to run at cooler temperatures and can increase their useful life

Performance

- Low power does not mean slow power with Barracuda LP drives
- The drives enable a faster, more energy-efficient system

Capacity

- A range of capacities up to 2 TB for greatest flexibility in building drives and systems for ever-expanding, storage-hungry applications

Acoustics

- Whisper-quiet acoustics for a quiet PC environment

Reliability

- Low-power, super-cool drives increase reliability
- The drives use the world's most reliable and proven perpendicular recording technology
- Thirteenth generation of the most widely used Barracuda desktop line

Sustainable Technology for a Green World

- Meets rigorous green design and manufacturing standards that are built into every Seagate drive
- Low power consumption enables eco-friendly systems
- Complies with RoHS directive and all major non-regulatory restrictions
