FreeAgent® GoFlex™ TV

HD MEDIA PLAYER SOLUTION

Seagate

Perfect for when you need to:

- Enjoy and share your videos, photos and music on TV in the comfort of your living room
- Play your high-definition film collection on your big screen TV
- Access content from storage devices on your home network
- Access Internet content on your TV, such as user-generated videos, podcasts, news, pictures, weather, stocks and shares, and more

Video: HDMI, Component video, Composite video
Audio: HDMI, Optical S/PDIF audio, Stereo RCA
Data: (2) USB 2.0, Ethernet
Capacity: 500 GB

Watch videos, look at photos and play music on your TV

The FreeAgent GoFlex HD media player offers the easiest way to watch videos, look at photos and play music on your TV, allowing you to share and enjoy your digital media in a comfortable, social environment such as your living room.

GoFlex Storage System

As part of the GoFlex Storage System, the GoFlex TV HD media player can play content from GoFlex ultra-portable drives simply by sliding the drive into the integrated bay or any USB storage device by connecting to one of the two USB 2.0 ports. You then have access to your complete media library with full 1080p high-definition playback and surround-sound audio support.

Internet content on your TV

With the built-in Ethernet port or optional Seagate® wireless adapter, the GoFlex TV HD media player can connect to your home network to access content from networked computers and network storage such the GoFlex Net media sharing device. Network storage allows you to store your entire media library in one, central location and stream it to multiple GoFlex TV HD media players around the home. The network connection also allows the GoFlex TV HD media player to access Internet content such as YouTube®, Mediafly®, vTuner®, Picasa®, Flicker®, stocks, weather and more.

Intuitive Interface

Navigating through your media library is intuitive with the DVD-like user interface and compact remote control. Browse your files with a familiar folder structure view or thumbnail view, or filter by media type such as videos, photos or music. And with just a few clicks on the remote control, it is easy to play slide shows with accompanying music and smooth transitions.

Highlights

- Easily play your videos, photos and music on your TV
- Connects to your router to access shared media and Internet content on your home network
- Play media from GoFlex ultra-portable drives or any USB storage device
- HDMI connectivity and 1080p HD video playback
- Supports most major codec and file formats
