

Change happens.

Seagate enterprise-capacity hard drives are designed for the most demanding data center environments. With the Seagate® Constellation® ES.3 hard drive for maximum workloads, and the Seagate Constellation CS hard drive for lighter workloads, you now have a choice.

Constellation ES.3

This sixth-generation, 3.5-inch capacity-optimized drive is built for robust enterprise storage operations providing maximum effectiveness in Tier 2 bulk storage applications.

- The best combination of high capacity (up to 4TB) and power efficiency with 7200-RPM, 6Gb/s SAS and SATA 6Gb/s interfaces
- 24x7 reliability and comprehensive data security
- Self-Encrypting Drive (SED) technology from Seagate helps secure data against unauthorized access upon drive loss, theft or retirement.
- Backed by a 5-year limited warranty

Constellation CS

This high-capacity, 3.5-inch drive is ideally suited for use in cloud data centers and offers maximum effectiveness and affordability in demanding replicated environments.

- The most affordable combination of high capacity (up to 3TB) and power efficiency with 7200-RPM, SATA 6Gb/s interface
- 24x7 bulk storage reliability
- Storage management made easier with the Seagate Instant Secure Erase for fast and easy drive retirement
- Backed by a 3-year limited warranty

Where to buy

Storage for life.
