

Product Overview

Capacity-Optimised Enterprise Hard Drives for Bulk-Data Applications

Constellation® ES.2

What this drive allows you to do:

- Maximise your enterprise storage capabilities without expanding your data centre
- Deploy a maximum-capacity enterprise storage solution while lowering your energy costs
- Improve your data centre uptime while lowering your storage management costs

Capacity-Optimised Enterprise Hard Drives for Bulk-Data Applications

Constellation® ES.2

Energy-Efficient High Capacities

- Constellation ES.2 drives operate on average at under 11.3W — the lowest 3TB* drive operating power in the industry. Save up to 54% more by implementing Seagate PowerChoice™ technology's on-demand idling power savings feature.
- Maximise data centre footprint usage by supporting up to 114TB per square foot

Reliable Storage always Available for your 24x7 World

- 1.2M hours MTBF and 0.73% AFR deliver the highest level of reliability for a 24x7 capacity-optimised drive
- Data is stored accurately with SAS-based advanced error correction capabilities
- Chassis performance is improved through top-cover attached (TCA) motor design
- Best-in-class vibration tolerance ensures consistent, reliable data access and performance in multi-drive systems

The Seagate Advantage

Built on leading experience in enterprise storage, the Constellation ES.2 drive maximises capacity while providing best-in-class features.

The Constellation ES.2 drive significantly improves performance with a 6Gb/s interface; the first capacity-optimised drive with 6Gb/s performance in both SAS and SATA interfaces.

Self-Encrypting Drive (SED) option helps companies achieve corporate and/or government security compliance goals. The drive helps protect data from inadvertent change from the moment of creation until the end of life, and Seagate Instant Secure Erase makes drive retirement and repurposing safe, fast and affordable. FIPS Self-Encryption Drive option meets regulatory data security compliance requirements and is FIPS 140-2 Validated™ to protect data classed as *Sensitive but Unclassified* and *Protected*.†

Designed for your Growing Needs

Ideally suited for use in both server and networked storage bulk-data solutions, the Constellation ES.2 drive offers a host of impressive enterprise features along with a faster, more successful integration experience.

The Constellation ES.2 drive, with its maximum capacity and robust enterprise reliability, provides a sustainable solution for your expanding data storage needs; designed to meet and exceed your expectations, it allows you to come in *under power* and under budget.

* Seagate recommends validating your configuration with your HBA/RAID controller manufacturer to ensure full 3TB capacity capabilities.

† See FIPS 140-2 Level 2 Certificate at <http://csrc.nist.gov/groups/STM/cmfp/documents/140-1/1401val2011.htm#1635>

Specifications	
Capacities ¹	3TB and 2TB
Interface	6Gb/s SAS and SATA 6Gb/s
Sustained Data Rate	up to 155MB/s
Cache	64MB
Spindle Speed	7,200 RPM
Reliability (MTBF)	1.2M hours
Operating Power	less than 11.3W
Limited Warranty	5 years

¹ One terabyte, or TB, equals one trillion bytes when referring to drive capacity.

² Nearline products shipped between 31 December 2011 and 30 June 2012 have a 3-year limited warranty. Nearline products shipped before 31 December 2011 or after 30 June 2012 have a 5-year limited warranty.

When referring to drive capacity, one gigabyte, or GB, equals one billion bytes; and one terabyte, or TB, equals one trillion bytes. Your computer operating system may use a different standard of measurement and report a lower capacity. In addition, some of the listed capacity is used for formatting and other functions, and thus will not be available for data storage. Actual data rates may vary depending on operating environment and other factors. The export or re-export of hardware or software containing encryption may be regulated by the US Department of Commerce, Bureau of Industry and Security (for more information, visit www.bis.doc.gov), and controlled for import and use outside the USA. Seagate reserves the right to change, without notice, product offerings or specifications. PO0100.4-1207GB, July 2012
