

Maxtor Basics[™]

Portable Hard Drive

Portable storage for your digital life.

USB 2.0: 80GB, 160GB

Your work, your photos, your songs, your digital video, your memories. Take them all with you in Maxtor's portable shock-protected hard drive. Ideal for home and office, it's easy to use. Just connect the USB cable* into your PC or Mac and it immediately appears as another drive on your computer.

Storage made simple — In capacities up to 160GB, you have enough room to keep everything in one place, and take it with you — every 80GB of storage can hold up to 25,600 digital photos* (JPEG normal), or 1330 hours of digital music (MP3), or 80 hours of digital video.

Quality and reliability of Maxtor — Maxtor has been providing proven, reliable storage solutions for over 20 years. The industrial design of this next generation of external hard drives includes shock protection, EMI protection and the newest SATA hard drive technology. Maxtor continues to stand behind quality and includes a three-year warranty.
