8-BAY RACKMOUNT NAS Data Sheet

Twice the storage capacity in half the space

The Seagate® Business Storage 8-bay Rackmount NAS is a complete network storage solution designed to keep businesses with up to 250 employees productive by creating a secure, shared space for file storage and backup. With its innovative 8-bay design in a 1U form factor, it's the perfect network storage solution for growing businesses.

The 8-bay Rackmount NAS is built with enterprise-class hardware inside and out, making it the ideal solution for businesses that demand a higher level of performance and reliability. It features Seagate Constellation® ES.3 enterprise drives, ECC RAM, redundant power supplies and dual Gigabit Ethernet ports for increased reliability, data integrity and uptime. Moreover, the 8-bay Rackmount NAS is the first network-attached storage product to offer eight 3.5-inch drives in a 1U form factor, providing double the capacity in essentially the same footprint. In addition, the 8-bay Rackmount NAS features hot-swappable fans and drive bays, sliding rails and best-in-class cable management for easy serviceability.

Powered by the performance-optimized Seagate NAS OS and featuring a 2.3GHz dual-core Intel processor coupled with 4GB of RAM, the 8-bay Rackmount NAS delivers impressive file transfer performance of up to 200MB/s. Plus, built-in support for iSCSI enables maximum performance and compatibility for virtualized environments.

Collaboration, sharing and anywhere access are brought together seamlessly with the integrated Wuala cloud service and business-focused apps for Windows, Mac®, smartphone and tablet. In addition, the 8-bay Rackmount NAS includes a 3-month trial for Wuala secure cloud backup. The service, built into the Seagate NAS OS, enables simple and secure offsite backup to Wuala's geo-distributed cloud storage. All data is first encrypted before leaving the NAS, and only the user retains the encryption key, for best-in-class security.
