

Meet the Demands of CCTV Security Data

When you need edge-to-cloud storage for real-time backup and scalable, long-term data retention, there's a combined solution that makes it easy. Say hello to Seagate Exos® X 5U84, Lyve™ Cloud object storage, and AxxonSoft One video management software.

Benefits & Applications

- Better analytics and data protection
- Flexible, cost-efficient scalability
- Seamless integration/interoperability
- On-demand access

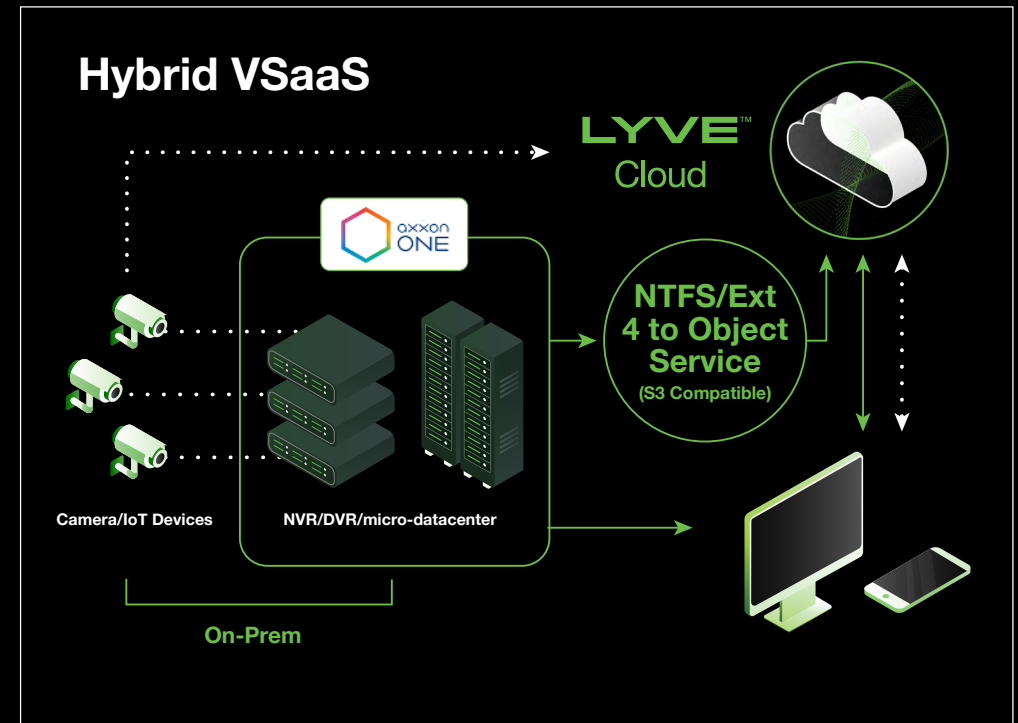

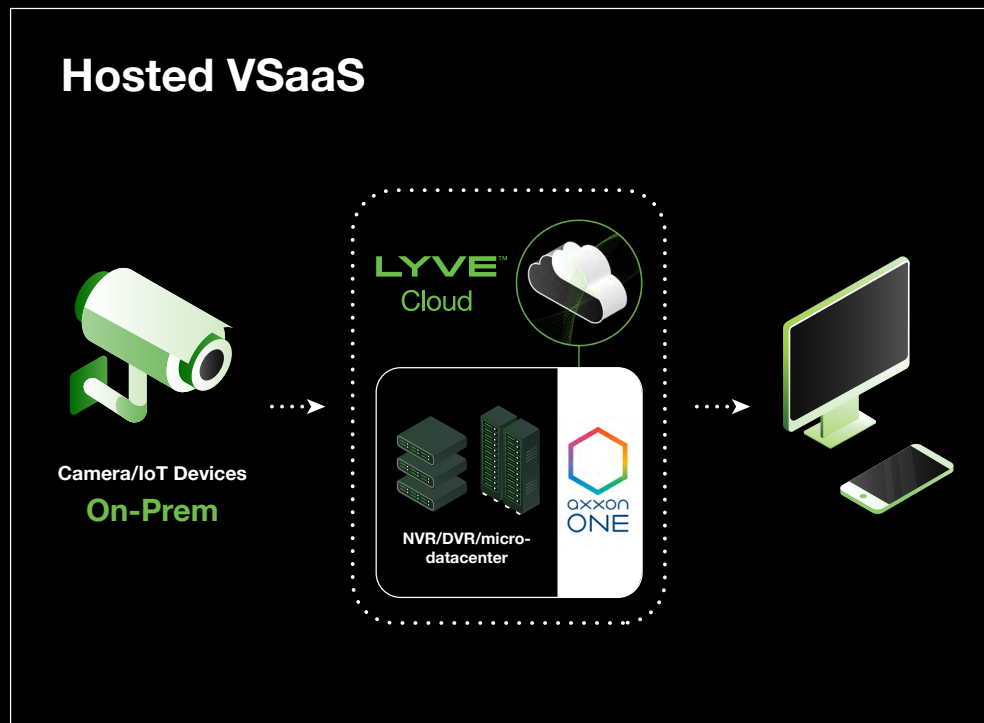

2023 ISC WEST PROMO

Video Imaging and Application Solutions

Seagate's Exos 5U84 system, paired with Lyve Cloud and AxxonSoft's AxxonOne VMS, eliminate the need for a bridge so that you can easily manage data across on-prem, hybrid, and/or hosted cloud environments.
