

Capture Data Anywhere. Move It Everywhere.

Specializing in the transportation, law enforcement, and private security industries, VisioLogix provides high-capacity data management and video capture solutions for on-prem and in-the-field workflows. Having perfected their body-worn camera technology, they're now taking it to the next level using Lyve Mobile for bulk data transfer in low-bandwidth environments.

Benefits & Applications

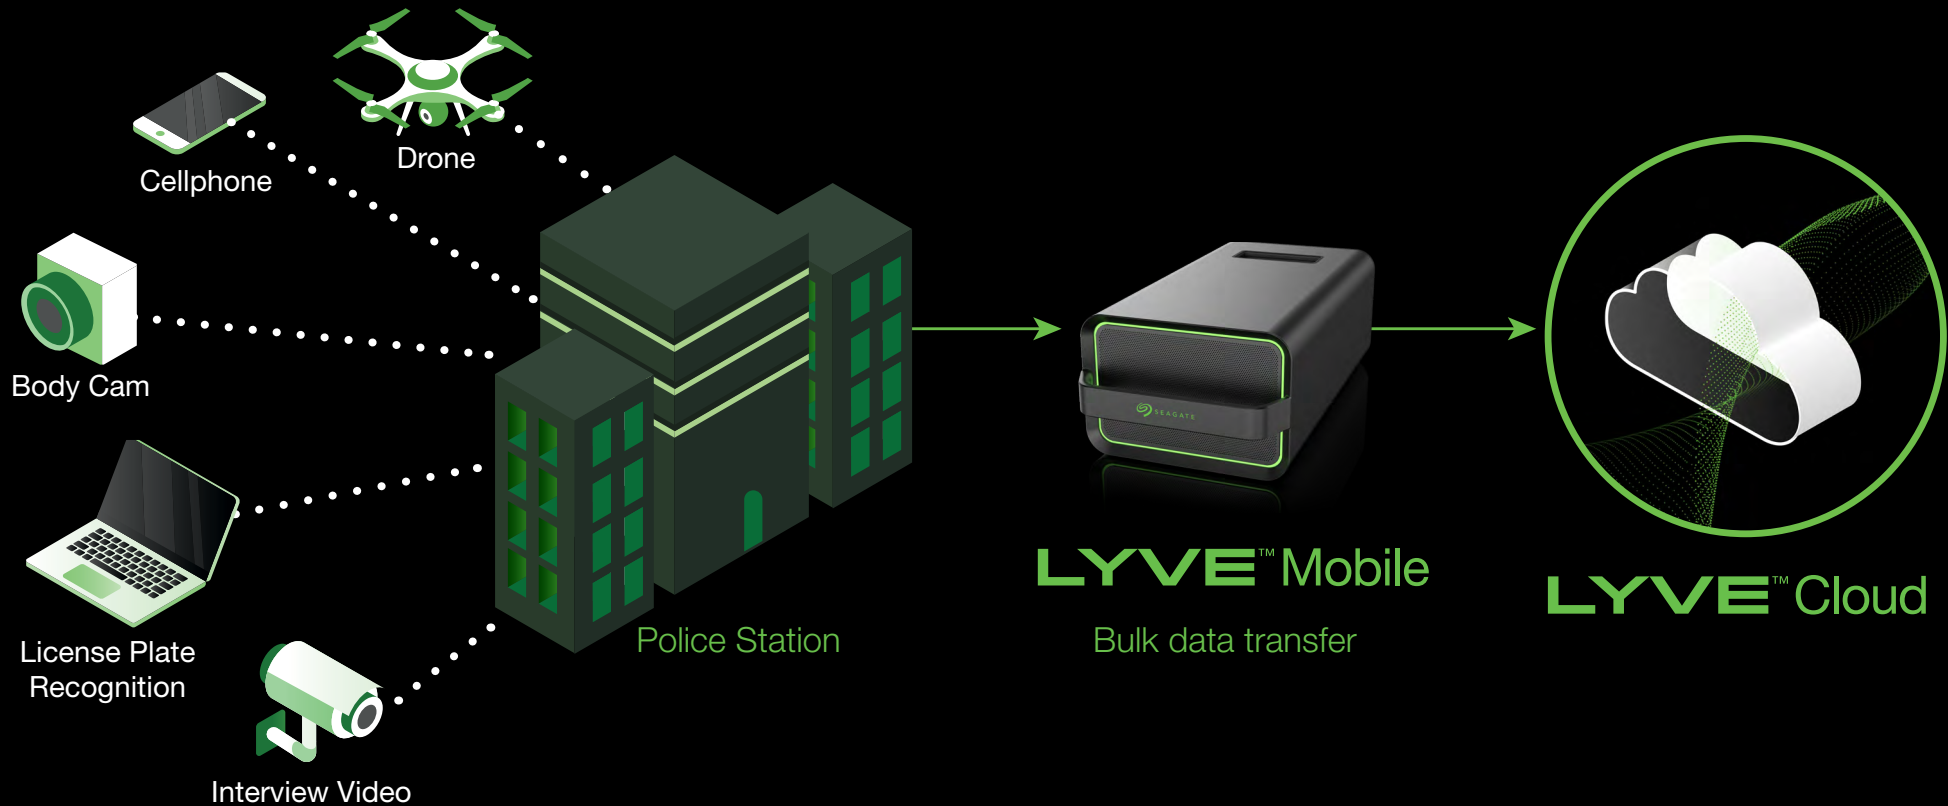

- Plug-and-play simplicity
- Fast and secure mass data movement
- Secure, scalable, modular devices
- Flexible, efficient subscription model

2023 ISC WEST PROMO

Unlock Data Insights from Endpoint to Cloud

Unlocking insights has never been easier, or faster. With Lyve Mobile, you can quickly and securely capture massive volumes of data—whether from a drone, body cam, laptop, surveillance camera, or on prem—and transfer it to the cloud without delays.
