What Are Blackjack Servers?

Powered by DW Spectrum®, Digital Watchdog's Blackjack® servers are robust, user-friendly video management solutions that enable unlimited scalability, unmatched bandwidth savings, and simplified system setup and management for Windows®, Linux® and MAC® platforms.

Blackjack Server Key Technologies	
DW Spectrum IPVMS	Access and control from your phone or tablet with an easy-to-use app that lets you check in on your business from across town, or across the country (available for iPhone® and Android®).
Dual Power Supply	Redundancy for reliability.
Hot Swappable Drives	When a drive needs to be replaced, you can easily hot-swap it with a new one while the system is still running.
Dual Network Cards	Equipped with dual network ports, you can optimize bandwidth by building a separate network for surveillance system traffic and reserving the main network for NVR communications.
