

LYVE™ Mobile

MOVE MASS DATA WITH LYVE MOBILE EDGE STORAGE SYSTEMS AND SERVICES.

Data Transfer as a Service

Empower Your Data from the First to Last Mile

Lyve Mobile from Seagate delivers high-capacity edge storage that enables businesses to aggregate, store, move, and activate their data. Scalable, modular, and vendor-agnostic, this integrated bundle of storage and cloud import services eliminates network dependencies so you can transfer mass data sets in a fast, secure, and efficient manner.

Best-Fit Applications

- Mobile edge storage
- Mass-capacity data transfer
- Large lift-and-shift data migration projects
- Storage, backup, cloud, and multicloud
- Disaster recovery and data redundancy transfer projects
- Fast ingestion of mass data to data centers and cloud

Benefits

- Plug-and-play simplicity
- Fast and secure mass data movement
- Accelerated time to business insights
- Scalable, modular, and flexible devices
- Clear, efficient subscription model

Store Data Anywhere. Move It Everywhere.

Lyve Mobile makes it easy to control how and when you move data. To get started, simply choose between our our Annual Plan or Project Plan. Remember, you'll only pay for the devices you need, when you need them.

Service Benefits

- Billing
- Flat per-device pricing
- Best for
- Scalability
- Seagate Secure™ encryption
- Secure data erasure by Seagate
- Advanced field replacement + virtual assistant
- Simple deployment and return
- Cloud import
- Device reconditioning
- Device upgrades

Project Plan*

Monthly

Optimal flexibility

Up or down as needed

Annual Plan

Yearly

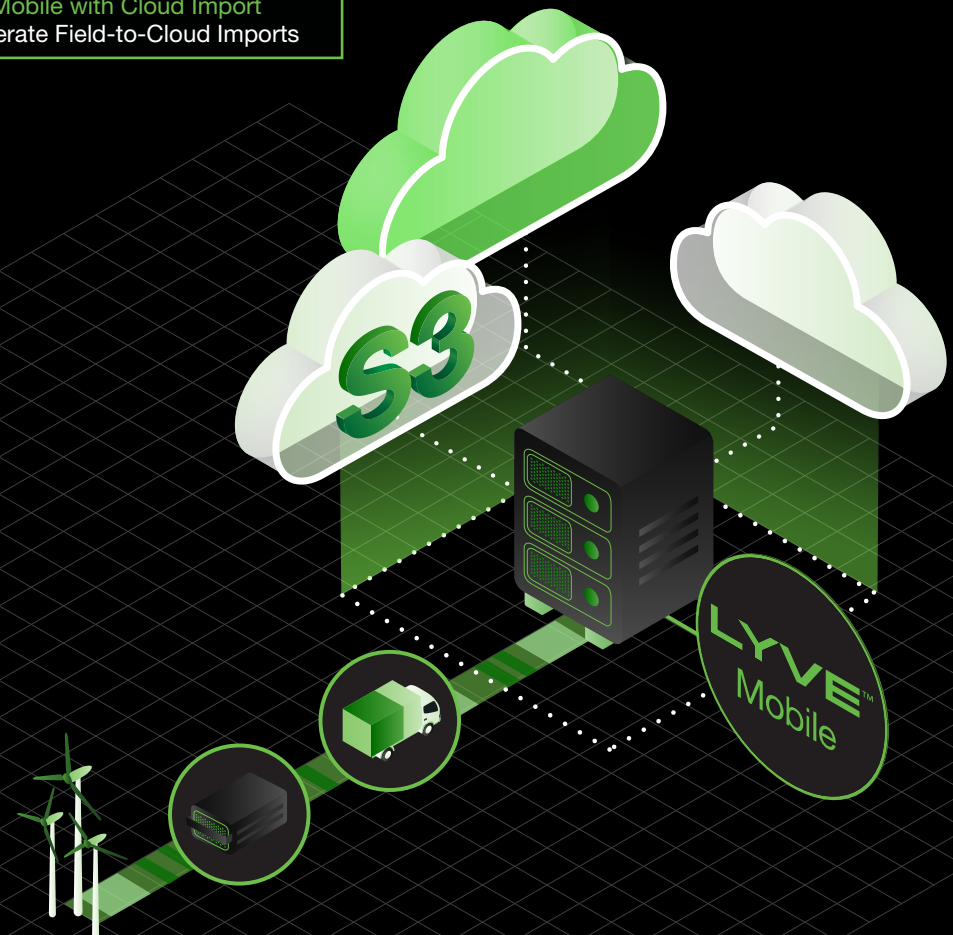

Upfront payment in one simple bill

Up anytime

Eligible upon renewal

Lyve Mobile with Cloud Import
Accelerate Field-to-Cloud Imports

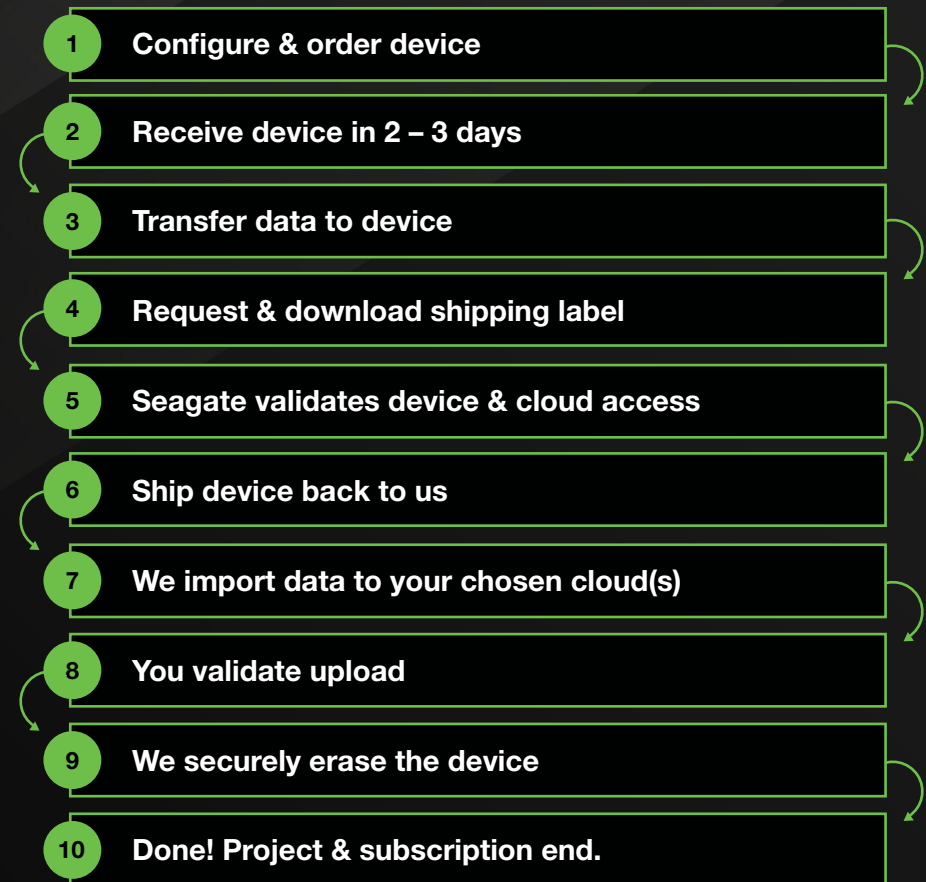

*10-day project minimum. Billed monthly in arrears and pro-rated for actual use.

Accelerate Imports from Field to Cloud

With Lyve Mobile cloud import, we help teams quickly and easily transfer data from any endpoint, edge, or core location to any major cloud or multicloud platform of choice. Here's how it works:

- Use the Lyve Management Portal to add the service to your Project Plan, validate credentials, and set up import requests.
- Pay a flat fee per device for each import.
- We handle all the shipping logistics so that it's quick and easy to receive and send us your import devices.
- Our team of experts imports your data to your cloud(s) of choice.
- Seagate Secure technology, device tracking, and crypto erase offer data protection for your data's entire lifecycle.
- Receive dedicated support and status updates from start to finish.

Cloud Import Made Easy

MOVE MASS DATA WITH LYVE MOBILE EDGE STORAGE SYSTEMS AND SERVICES.

Edge Storage That's Up to the Task

Transfer mass data in days—not weeks.

Lyve Mobile Array	Lyve Mobile Rackmount Receiver	Lyve Mobile PCIe Adapter	Lyve Mobile Mount Front Loader	Lyve Mobile Array Shipper
Put mass edge data in motion with Lyve Mobile Array, a secure storage solution with enormous capacity of up to 122TB and high performance of up to 12GB/s (available in HDD, SSD, and NVMe).	Turn your Lyve Mobile Array into a data center storage system with redundant power and high-speed interfaces like SAS, Fibre Channel, and iSCSI.	This adapter is designed for optional use with the Lyve Mobile Mount. Use it to connect your Lyve Mobile Array directly to an external PCIe (SFF-8644) port on your computer.	Designed to support horizontal loading of the Lyve Mobile Array, the Front Loader enables easier cable management with convenient front access.	Transport your Lyve Mobile Array in extreme conditions with this ruggedized carrying case.
