Lyve Mobile Storage on Demand

The right-sized approach to any data transfer.

Lyve Mobile Services put you in control when you move mass data from the set to the post-production studios. Choose between two service plan options: the Annual Plan, a 12-month term that includes expanded subscription services and 8% monthly savings, or the Project Plan, a month-to-month evergreen subscription for project-based flexibility.
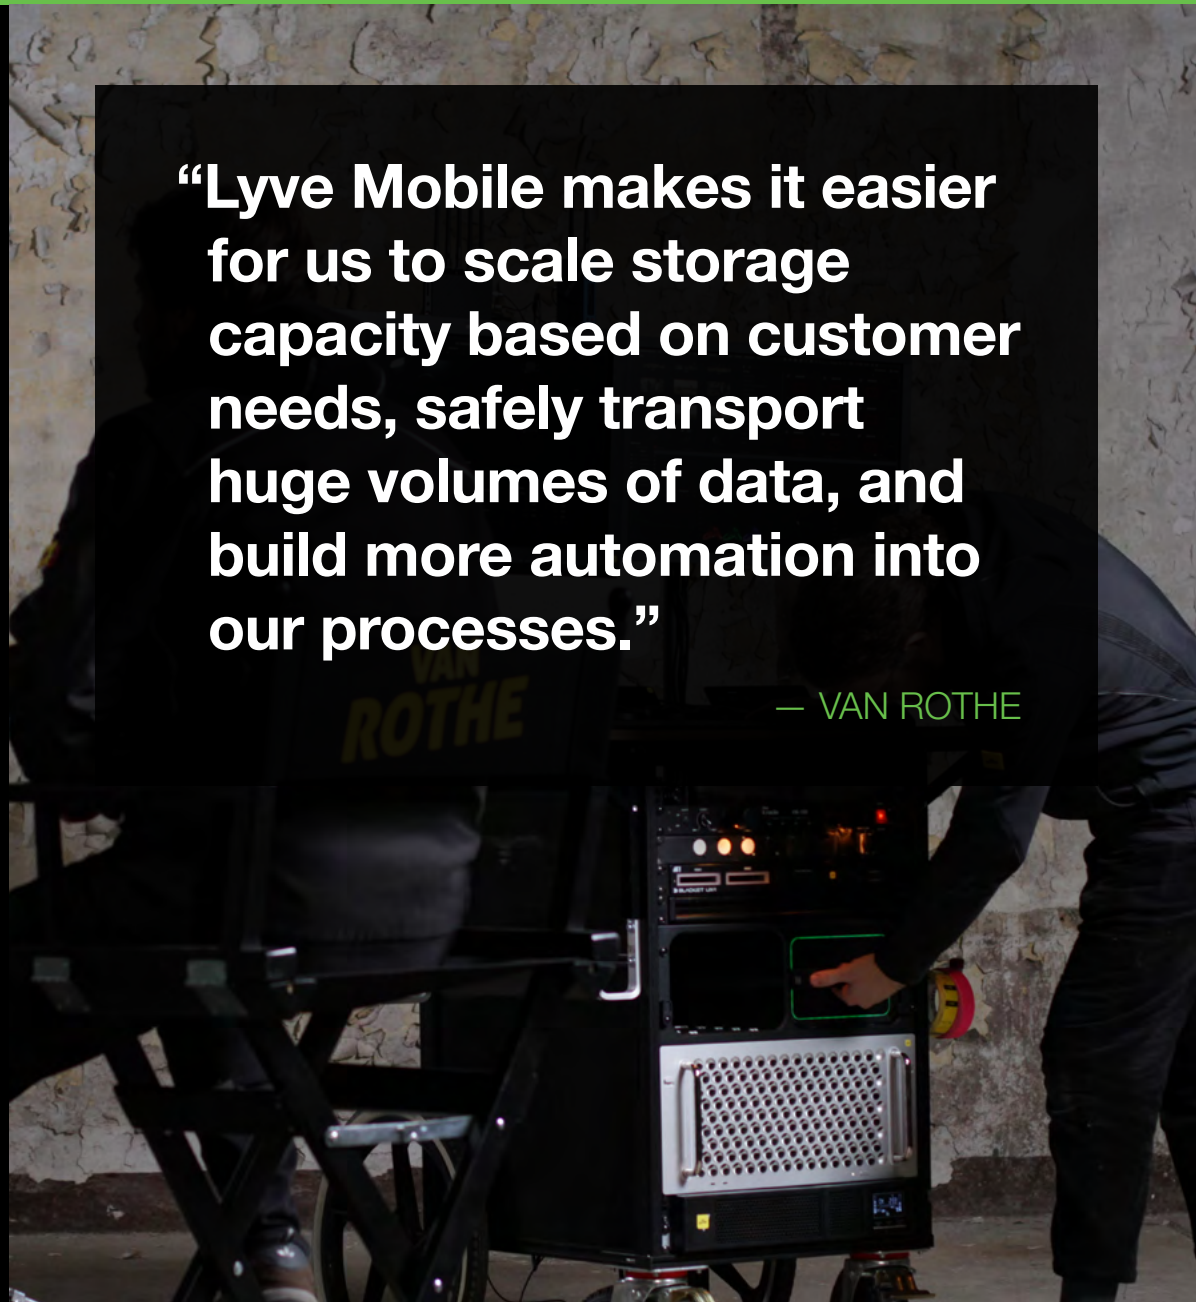

Service Benefits	Project Plan*	Annual Plan
Device provisioning & deployment	✓	✓
Multi-user management	✓	✓
Device advanced replacement	✓	✓
Seagate virtual assistant	✓	✓
Asset return management	✓	✓
Device reconditioning		✓
Scale devices up or down		✓
Swap technology as needed		✓

*This is the most popular plan and requires a 10-day minimum project. Billing occurs monthly in arrears and is pro-rated for actual use.

"Lyve Mobile makes it easier for us to scale storage capacity based on customer needs, safely transport huge volumes of data, and build more automation into our processes."

Put mass data in motion with the Lyve Mobile Array—a secure storage solution for high- capacity, high- performance edge storage applications.	Turn your Lyve Mobile Array into a data center storage system with redundant power and high-speed interfaces like SAS, Fibre Channel, and iSCSI.[1]	This adapter is designed for optional use with the Lyve Mobile Mount. Use it to connect your Lyve Mobile Array directly to an external PCIe (SFF-8644) port on your computer.	This industrial mount built for extreme conditions lets you quickly secure and remove the Mobile Array to a DIT cart or production vehicle.	Transport your Lyve Mobile Array in extreme conditions with this ruggedized carrying case.
