

# Innovation from Endpoint to Cloud

## Video Imaging and Application Solutions

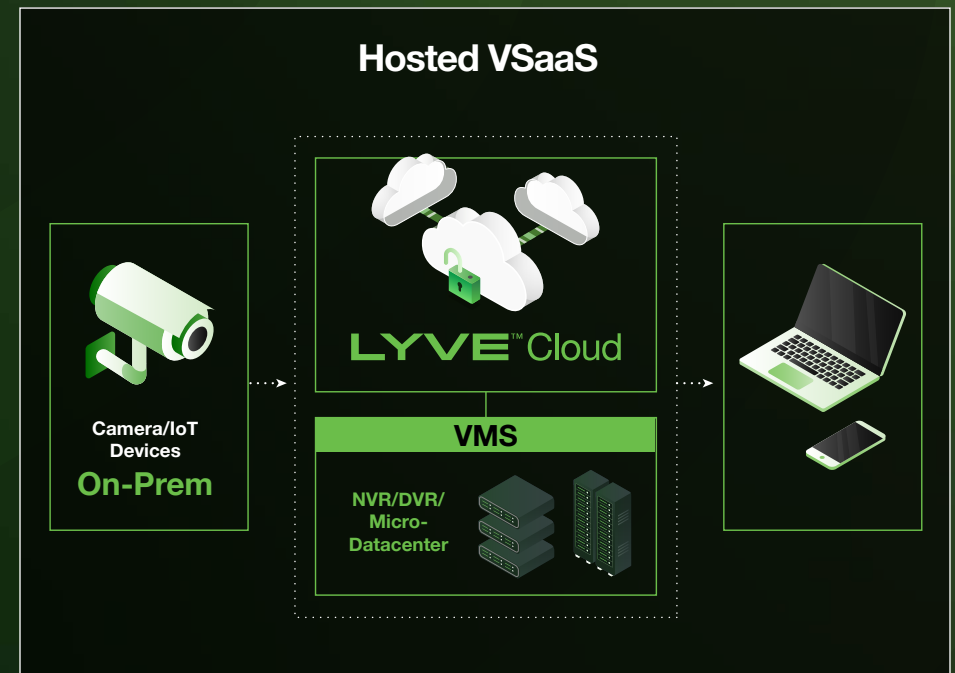

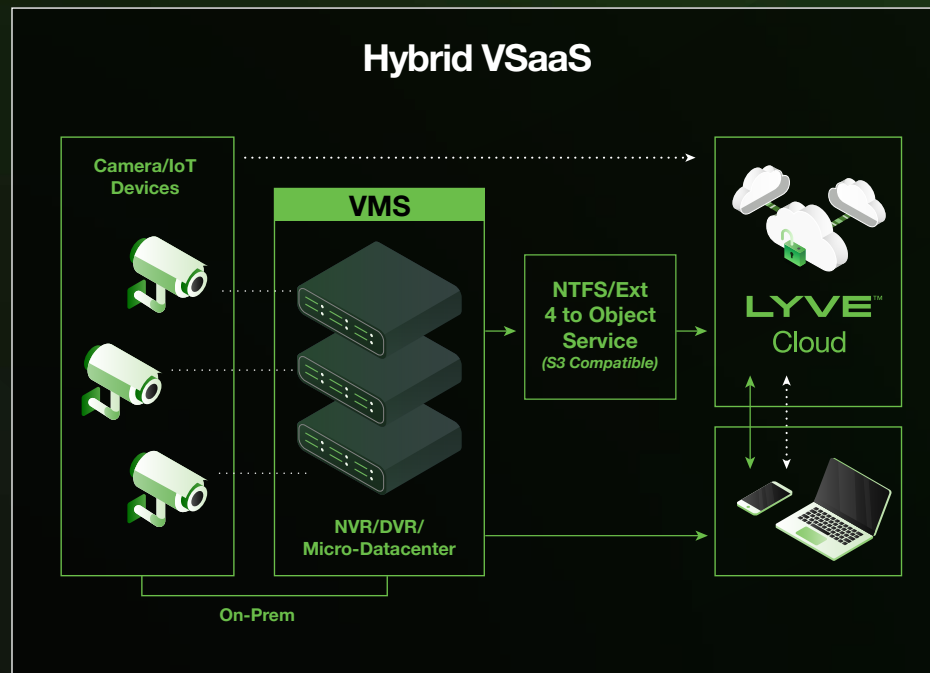

## Experience the feeling of multicloud freedom.

Unlock valuable insights faster with Seagate's AI-ready enterprise drives, high-density systems, and frictionless cloud storage—all designed and integrated for unstoppable security and surveillance workflows.

Now you can securely manage massive volumes of video data—without the massive fees for cloud storage. Lyve Cloud S3 object storage combines limitless scalability with stringent security so that you can store as much as you

want—for as long as you want—with total peace of mind. As for API and egress fees ... they suck. That's why we don't charge them.

# Innovation from Endpoint to Cloud

## Video Imaging and Application Solutions

Manage torrents of data like never before with Seagate's most powerful drives for security, surveillance, and analytics workloads—SkyHawk AI and Nytro. Combining ultra-dense capacity with leading VMS software, Exos offers a single solution for managing multi-stream, multi-petabyte surveillance workloads.

EDGE COMPUTING & STORAGE		COMPUTE & CENTRALIZED STORAGE	DATA ARCHIVE	
DVR	Hybrid, NVR AI, VMS Appliance	Enterprise NVR, VMS Appliance Storage Sub-System		JBOD, Archive Cold Storage
Facial Recognition, Sequential 24x7 Video Recording		Facial Recognition, Traffic Pattern Analysis, Machine Learning Workloads		Mixed Workloads
				Video Archive
