

BLACKARMOR® | PS 110

Portable Storage & Backup System

Interface USB 2.0
Capacities 500GB

Perfect for when you need to:

- Securely back up files at your desk or on the go.
- Carry and access files and backup copies of files while traveling.
- Recover your entire system from a PC crash.
- Protect backed up files with encryption.

Complete system backup built for the road warrior

Business-grade software, a reliable Seagate® hard drive and exceptionally slim form factor make the BlackArmor® PS 110 portable drive a powerful mobile storage and backup solution for your digital assets. The BlackArmor Backup software, preloaded on the drive, offers full-system backup, which includes the operating system, all of your programs, setting, email... Everything! Plus, you can choose to safeguard your backed up files with AES 256-bit government-grade encryption.

If you accidentally delete a file or lose data due to a computer crash, you can easily recover individual files or revert your entire system back in time before the problem occurred, all with the included SafetyDrill+™ recovery software.

The Try & Decide feature allows you to create a secure, controlled temporary workspace on your computer. You can try out new programs or change system settings without having to worry about losing data or damaging your system. When finished experimenting, simply decide to keep the changes or discard the recent activity as if it never happened.

The BlackArmor PS 110 is compatible with Seagate dock accessories, so you can easily access and back up your files while keeping your workspace organized.

Highlights

- Incremental and full-system, automatic backup for PCs.
- SafetyDrill+™ recovery software (Bare Metal Restore).
- Backs up open files for greater protection.
- File and folder-level encryption for backed up data.
- Slim 12.5mm thin form factor makes it effortless to carry while traveling
- Easily find backed up versions of files with Windows® or Google™ desktop search.
- Utilizes the same software package as all other BlackArmor® products for ease of installation and management.
- Built with a reliable Seagate® hard drive.
- 5-year limited warranty.
