

BLACKARMOR® PS 110

PORTABLE DRIVE

USB 3.0 Performance Kit

Perfect for when you need to:

- Securely back up files at your desk or on the go.
- Carry and access files and backup copies of files while traveling.
- Recover your entire system from a PC crash.
- Protect backed up files with encryption.

Interface USB 3.0

Capacities 500GB

Outstanding performance and protection for your digital assets

The BlackArmor® PS 110 USB 3.0 performance kit includes a 7200RPM PS110 portable drive, PC card adapter and all the cables you need to upgrade your laptop and take advantage of USB 3.0 performance. The combination of a 7200RPM PS 110 portable drive and USB 3.0 interface delivers up-to 3x faster transfer speeds than USB 2.0 drives. Preloaded software, powered by Acronis®, ensures automatic data protection with full-system backup, SafetyDrill+™ recovery (Bare Metal Restore) and AES 256-bit encryption for backed up files. Plus, the slim 12.5mm form factor makes it effortless to carry while traveling.

BlackArmor Backup Software Powered by Acronis®

If you accidentally delete a file or lose data due to a computer crash, you can easily recover individual files or revert your entire system back in time before the problem occurred, all with the included SafetyDrill+™ recovery software.

The Try & Decide feature allows you to create a secure, controlled temporary workspace on your computer. You can try out new programs or change system settings without having to worry about losing data or damaging your system. When finished experimenting, simply decide to keep the changes or discard the recent activity as if it never happened.

Highlights

- 7200RPM drive with USB 3.0 delivers 3x faster transfer speeds than USB 2.0 drives
- Kit includes everything you need to upgrade your laptop to USB 3.0
- Automatically back up your entire system including files, programs, OS and settings
- SafetyDrill+™ recovery software allows you to restore your entire system to a previous point in time using a backup image
- Secure backed up files with AES 256-bit encryption
- Slim 12.5mm thin form factor makes it effortless to carry while traveling
- 5-year limited warranty.
