# Barracuda® Green

Green power that won't slow you down

## 2TB and 1.5TB • SATA 6Gb/s

### Key Advantages

- A unique 5900-RPM platform delivers the fastest performance of any eco friendly drive available.
- Seagate SmartAlign™ technology provides the benefits of the new Advanced Format 4K sector standard without the hassle—no utilities, no extra steps.
- Plenty of capacity for storage-hungry applications
- The SATA 6Gb/s interface and 64MB cache maximize performance, especially in cache-intensive applications.
- Low power consumption combined with leadership in the use of materials that meet environmental compliance programs means you don't have to sacrifice environmental stewardship for performance.
- Cool, quiet operation

### Best-Fit Applications

- High-capacity desktop storage
- Direct Attached Storage devices—USB/FireWire/eSATA
- Network Attached Storage devices and Windows storage servers
- Eco friendly PCs

# Barracuda® Green

Green power that won't slow you down

## Barracuda Green Drives Save Time

The Seagate® Barracuda Green drive saves you time with a combination of fast performance and no-hassle hard drive integration.

- Delivering sustained data throughput up to 144MB/s, the Barracuda Green drive sets a new standard for performance in the eco-drive category.
- Seagate SmartAlign technology delivers a new level of simplicity for Advanced Format 4K drives. While other Advanced Format drives require the use of additional software utilities during integration, the Barracuda Green drive with Seagate SmartAlign technology requires no extra time or steps.

The Barracuda Green drive delivers on the product promise—Green power that won't slow you down!
