

# Maxtor Basics<sup>™</sup>

## External Desktop Hard Drive

Instant add-on storage for your digital life

**The Maxtor Basics External Desktop hard drive is ideal when:**

You need simple, reliable add-on storage

You need a worry-free storage solution for your home or work files

You need to easily handle your expanding collection of digital photos, audio files, and documents

### USB 2.0: 250GB, 500GB

Your work, your photos, your songs, your digital video, your memories. Store them all safely and securely in Maxtor's External Desktop Hard Drive. Ideal for home and office, it's easy to use--just connect the power adapter; then connect the USB cable into your PC or Mac and your Maxtor Desktop Hard Drive appears as another drive on your computer. Perfect for the Home PC or laptop user who needs extra storage in a hurry.

Storage made simple — Use the extra capacity to free up the space on your PC or Mac for better performance, or to add more of your favorite files – every 100GB of storage can hold up to 32,000 digital photos\* (JPEG normal), or 1665 hours of digital music (MP3), or 100 hours of digital video.

Quality and reliability of Maxtor — Maxtor has been providing proven, reliable storage solutions for over 20 years. The industrial design of this next generation of external hard drives includes shock protection, EMI protection and the newest SATA hard drive technology. Maxtor continues to stand behind quality and includes a three-year warranty.

### Highlights

- Easy set-up
- 20 years of proven storage reliability
- USB 2.0 and 1.1 compatible
- PC and Mac compatible

**3** YEAR  
LIMITED  
WARRANTY
