

Accelerate the Datasphere with Enhanced Caching

Exos™ E class hard drives for database workloads.

The Ideal OLTP, VDI & WebServer Solution

Enhanced caching optimizes read and write performance for faster transaction processing within budget.

Support More Users

Up to 2x faster response times during peak demand.

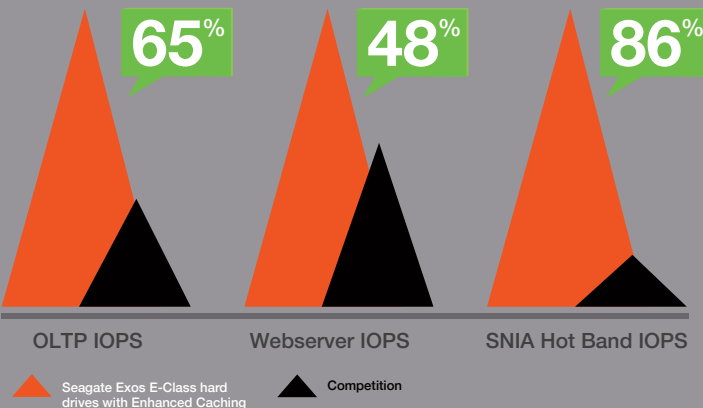

Seagate Exos E class hard drives with Enhanced Caching

Competition

Faster Data Transactions

Up to 3x the performance of standard hard drives

Easy Integration

- Boosts capacity & performance
- Preserves legacy infrastructure
- 9th-generation dependability

Exos E class hard drives with enhanced caching.
