Seagate® Momentus® XT Solid State Hybrid Drive
Instant Add-on Storage

**Interface** SATA  
** Capacities** 750GB

**Momentus XT Drive – Ultimate Performance**

The Momentus XT solid state hybrid drive combines a 7200RPM hard drive, 32MB of cache and 8GB of solid state SLC NAND flash to add SSD-like performance to any laptop. The Momentus XT drive uses FAST Factor™ Technology (Flash-Assisted Storage Technology) to boot and launch applications within seconds of a solid-state drive, but is more cost-efficient because the combined technology leverages the cost-efficiency of a disk drive. Adaptive Memory™ technology intelligently monitors the frequently used files and stores them in the solid state memory for blazing fast recall. The SATA 6Gb/s interface enables the use of the industry's latest and fastest hard drive controllers while providing backward compatibility to SATA 3Gb/s systems. The Momentus XT drive is designed to work in any laptop and is optimized for mobile computing and small form factor PCs to simultaneously run multiple applications like video and photography editing, video playback and computer games. Backed by Seagate's 5-year limited warranty.
