About this Poster

Thank you for selecting a Maxtor hard drive product.

This Quick Start Poster provides an installation overview for users who have previous experience installing a hard drive.

If you need detailed instructions, refer to the Maxtor ATA Hard Drive Installation Guide provided with this kit or included on the MaxBlast Plus II CD-ROM.

Precautions

- Drive should be at room temperature before installing.
- Do not touch circuit board on drive.
- Do not connect cables to drive or motherboard with system powered on.
- Do not drop, bump, or jar drive.

Tools Required

- Phillips Screwdriver
- Small Needle-Nose Pliers
- Operating System CD and Boot Disk
- System User Manual

Included in this Kit

- Maxtor ATA Hard Drive
- ATA Interface Cable
- MaxBlast™ Plus II Diskette
- MaxBlast™ Plus II CD
- 5.25-inch Mounting Brackets (not included with all kits)
- Mounting Screws
- Quick Start Poster
- Installation Guide (not included with all kits)

INSTALLATION STEPS

1. Remove system cover

2. Determine jumper style

   Match your drive to the illustration below to determine jumper style. For styles B and C, check drive label for the specific model number.

   Style C is used on models D740X and DS40X-4K.

   Jumper Style A

   or

   Jumper Styles B & C

3. Set jumpers

   See “Setting the Jumpers” in the Maxtor ATA Hard Drive Installation Guide for more details.

   Style A

   Style B

   Style C

Note for Macintosh Users

Refer to Macintosh system documentation or go to www.apple.com.
**INSTALLATION STEPS**

### 3 Mount the drive

Refer to your system documentation for more details.

### 4 Attach the cables

See “Attaching the Cables” in the Maxtor ATA Hard Drive Installation Guide for more details.

### 5 Set the BIOS (Windows only)

See “Configuring the System BIOS” in the Maxtor ATA Hard Drive Installation Guide for more details.
