4-BAY RACKMOUNT NAS Data Sheet

Centralize your storage and backups with a complete network storage solution that saves valuable floor space for small businesses.

The Seagate® Business Storage 4-bay Rackmount NAS is a complete network storage solution designed to keep businesses with up to 100 employees productive by creating a secure, shared space for file storage and backup. Offering an excellent blend of performance and value, the 4-bay Rackmount NAS is the ideal network storage solution for growing, small businesses.

The 4-bay Rackmount NAS features a short-depth chassis, allowing it to be installed in a shallow rack, which saves valuable floor space, making it the ideal solution for growing businesses. The 4-bay Rackmount NAS includes Seagate NAS HDD drives featuring NASWorks™ technology, which supports customized error recovery controls, power management and vibration tolerance for optimal performance and reliability. In addition, the 4-bay Rackmount NAS is equipped with hot-swappable drive bays and dual Gigabit Ethernet ports to help increase uptime and keep your business running.

Powered by the performance-optimized Seagate NAS OS and featuring a 2.13GHz dual-core Intel Atom™ processor coupled with 2GB of RAM, the 4-bay Rackmount NAS delivers impressive file transfer performance of up to 200MB/s. Plus, built-in support for iSCSI enables maximum performance and compatibility for virtualized environments.

Collaboration, sharing and anywhere access are brought together seamlessly with integrated Seagate Sdrive™ software and business-focused apps for Windows, Mac®, smartphone and tablet. The Sdrive app, built into the Seagate NAS OS, enables you to access your data anywhere, on-site or off-site through the same simple experience. All data is first encrypted before leaving the 4-bay Rackmount NAS, and decrypted on the user's device for best-in-class security.
