This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

If these measures do not eliminate the interference, consult an experienced radio/TV technician for help.

Consult the dealer or an experienced radio/TV technician for help. The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTA: per portare in utilizzo l'unità in conformità alla direttiva EMC, è necessario che l'unità sia installata e operata in conformità alle istruzioni contenute in questo manuale e che l'installazione sia effettuata da un tecnico autorizzato. Per ulteriori informazioni, rivolgersi al rivenditore o al servizio di assistenza. Se non viene rispettata questa direttiva e l'unità è provata dannosa per l'uso pubblico, la responsabilità si sposta dal produttore al proprietario dell'unità. La normativa vigente non prevede la possibilità di rivendicare il rimborso dei danni causati. Se la presente attrezzatura è installata in una casa privata, non è necessario ottenere la certificazione EMC o la conformità alla direttiva EMC. Tuttavia, in caso di installazione in un edificio pubblico o in un insieme di abitazioni pubbliche, la certificazione EMC è obbligatoria.
